department of economic, small business development, tourism and environmental affairs EREE STATE PROVINCE

Department of Economic, Small Business Development, Tourism and Environmental Affairs

Annual Performance Plan 2019/20

Free State Province

FOREWORD

In the past year, we made an undertaking that the Department is committed to ensuring that considerable progress is made in the creation of jobs through implementation of various programmes and projects like;

- Flower Festival
- Township revitalization programmes
- · Industrial parks
- · Black Industrialist programme
- · Global Investors Trade Bridge
- · Township enterprise development
- · Resorts and reserves infrastructure enhancement
- Innovative environmental management programmes
- · Cleaning of towns

We have successfully implemented some of the above projects and are very proud to indicate the majority of these were achieved except the Global Investment Trade Bridge, which will take place in April 2019.

During his 2019 State of the Nation Address, the President of the Republic of South Africa, His Excellency, Mr. Cyril Ramaphosa reflected on five priorities which will serve as the core business of Government in 2019 as follows.

"Firstly, we must accelerate inclusive economic growth and create jobs. Secondly, our history demands that we should improve the education system and develop the skills that we need now and into the future. Thirdly, we are duty bound to improve the conditions of life for all South Africans, especially the poor. Fourthly, we have no choice but to step up the fight against corruption and state capture. Fifthly, we need to strengthen the capacity of the state to address the needs of the people".

In the year ahead, 2019/2020, the Department will pay much attention to ensuring that the above five priorities are realised. The Department will put more emphasis on Integrated Economic Development with more impetus on the Special Economic Zone (SEZ) and the support for the Small, Medium and Micro Enterprises. The Department will integrate the Global Trade Bridge with an Investment Summit which will lobby for investment in the Maluti a Phofung SEZ and Industrial Parks. One of the major emphasis on this initiative will be trade and investment promotion.

To enhance the Integrated Economic Development, the Department will also undertake a study to reflect on the progress and impact which has been made through Departmental funding incentives to support economically viable and sustainable enterprises for the development, growth and transformation of the provincial economy (SMMEs and Cooperatives).

The Report of the Portfolio Committee on Tourism on oversight visit to Free State Province, dated 1 June 2017 raised major concerns on Tourism in the Province. It highlighted some strategic concerns which must be addressed as a matter of urgency. "The Committee was generally concerned about the state of affairs in the province.

The stakeholder engagements held in various locations within the province indicated that the sector is not well coordinated and there are capacity constraints at both provincial and municipality levels to drive inclusive tourism growth". Among these concerns are the following matters:

- Lack of a guiding Provincial Tourism Masterplan to provide a comprehensive strategic direction.
- The province has a huge untapped potential that is stifled by fragmented planning and coordination of tourism activities.
- There is a poor working relationship amongst the spheres of government and between the public sector and private sector in the province.
- The province is also not aligned to some national tourism imperatives, such as Universal Accessibility despite clear national guidelines.
- Tourism is pitched at a directorate level in the province despite the Budget Structure agreed to with all provinces, that tourism should be at a chief directorate level in provinces.

The Free State Gambling and Tourism Authority, with the Tourism Directorate will develop a Programme of Action to address the above challenges. The Department has re-established the Provincial Tourism Forum and the Provincial Tourism Council (chaired by the MEC) to deal with Tourism development in an integrated manner.

Sustenance of a safe, healthy and clean environment remains one of the pillars of the Department. We will identify Municipalities who need support with establishing the licensed landfill sites. This exercise will be coupled with an audit and report on the illegal dumping sites in the Province, but also with the implementation of the Cleaning of Towns Campaign informed by the report on the illegal dumping site. We will assist the Municipalities by providing capacity to deal with the matters of healthy, safe and clean environment.

Our Biodiversity economy will be guided by a strategy and an implementation plan which will be reported in the Executive Management as means to address environmental management fraternity. The wildlife economy transformation, in particular, will target the previously disadvantaged communities in the game ranchers programme. The programme of maintenance and renovations of nature reserves and resorts to ensure protection of the natural resources of the Free State and promote Ecotourism will be prioritised.

MR M MOHALE

MEC: ECONOMIC, SMALL BUSINESS DEVELOPMENT, TOURISM AND ENVIRONMENTAL AFFAIRS

OFFICIAL SIGN-OFF

It is hereby certified that this Annual Performance Plan:

- Was developed by the management of the Department of Economic, Small Business Development, Tourism and Environmental Affairs (DESTEA) under the guidance of the honourable MEC M Mohale.
- Was prepared in line with the current Strategic Plan of the DESTEA.
- Accurately reflects the performance targets which the DESTEA will endeavour to achieve given the resources made available in the budget for 2019/20.

PART A: Strategic Overview

Below is a description of performance, policy organisational environments within which the Department operates.

Situational Analysis

Situational Analysis

The main focus and mandate of the Department of Economic, Small Business Development, Tourism and Environmental Affairs (DESTEA) is to champion economic development activities in the Free State.

The table below outlines the main problem statements and planned critical outputs to help address the identified challenges experienced in growing and developing the provincial economy:

Economic, Small Business Development and Tourism

Problem Statement Key Departmental Response Various initiatives needs to be embarked Free State Growth The and upon to grow the economy of the Development Strategy (FSGDS) aims at increasing the provincial economic province: growth rate from 2.5% in 2011 to 7 % in 2030. Continue to drive and prioritize the productive sectors of the provincial economy as per the Provincial In 2017, the Free State Province Economic Development Strategy achieved an annual growth rate of 2.90% (PEDS). which is a significantly higher growth rate Development of a targeted than that of the country as a whole, programme to support small scale where the 2017 GDP growth rate was miners as part of supporting and 1.30%. Contrary to the short-term growth participation of broadening rate of 2017, the longer-term average previously disadvantaged individuals growth rate for Free State (1.42%) is in the sector. slightly lower than that of South Africa Partnering with key stakeholders, (1.76%). The economic growth in Free houses including mining State peaked in 2007 at 3.71%. implement projects in order to diversify economic activities within the distressed mining towns. Nurture partnerships with the private sector (big businesses) to increase their participation in development and mentoring of small businesses as well as reinvestment in the province. Continue to support and develop youth oriented programmes within key sectors such as mining, agroprocessing and manufacturing. Two

- programmes are targeted for 2019/20.
- Financial and non-financial support of township and rural enterprises as part of ensuring the growth and sustainability of the economic sector.
- · SMME Hub development

Free State Development Corporation (FDC) and MAP SEZ

- The FDC will continue to attract investment
- To continue to attract commercial and industrial tenants
- Revitalisation of the Botshabelo and Phuthaditjhaba Industrial Parks

Free State Gambling, Liquor and Tourism Authority (FSGLTA)

- The rolling out and approval of Limited Payout Machines (LPM's)
- · Issuing of Bookmakers licenses.
- Issuing of liquor and gambling licenses
- Tourism promotion

Problem Statement

The FSGDS aims at reducing the unemployment rate from 32% in 2012 to 6% by 2030

In the third quarter of 2018 Free State's official unemployment rate increased by 4.5 percentage points to 36.3% as compared to the third quarter 2017. The expanded unemployment rate, which includes people who have stopped seeking work, rose by 3.0 percentage points to 41.5% compared to the third quarter 2017.

Approximately 3.2 million (31%) people out of 10.3 million young people aged 15-24 years were not in employment, education or training (NEET) in South

Key Departmental Response

DESTEA has tailor made SMME support programmes with the focus on females and youth to stimulate the priority sectors:

Risk Sharing Facility

DESTEA collaboration in Development Finance Institutions (DFIs) will continue to assist SMMEs financial and non-financial support. Small to medium businesses that require cash injection to become black industrialists will be supported the Risk Sharing through Programme.

Tabalaza

Africa. The overall NEET rate increased by 0.8 of a percentage point to 31, 1% in Q3:2018 compared to Q3:2017.

The Free State Province reported the lowest NEET rate for persons aged between 15 and 24 at 29.0% for Q3 2018.

The programme creates a platform that links businesses with potential investors/venture capitalists for support and investment purposes. It targets youth businesses in the Free State.

Agro-processing Development Support programme:

The purpose of the programme is to address the challenges that underpins development across the sector, with the aim of enabling farmers and entrepreneurs intending to process their primary produce or expand their current processing plants to access funding.

- Job creation initiatives through the EPWP.
- Inward and outward trade missions.

Problem Statement

The province aims at increasing the number of bed nights spend by domestic tourists compared to international tourists.

Over a ten year period, from 2007 to 2017, the number of bed nights spent by domestic tourists has decreased at an average annual rate of -7.67%, while in the same period the international tourists had an average annual increase of 16.63%. The total number of bed nights spent by tourists increased at an average annual growth rate of 3.62% from 10.5 million in 2007 to 15 million in 2017.

Key Departmental Response

- on the demand side, to effectively market the Free State Province to attract domestic tourists as well as to increase the number of international tourists. On the supply-side, to prioritise the enhancement of tourism infrastructure, the developing and improving of skills, the inculcation of the culture of service excellence and to enhance the provision of world class visitor experiences.
- To bring significant changes in the tourism sector in the province, the following long-term programmes needs to be implemented in collaboration with the envisaged opportunities:
- A government support programme for tourism development and growth.
- · Improving of tourism marketing

- Expansion of tourism products and product range
- To increase and build human capacity for tourism development and service excellence
- Increase marketing and promotion of the Free State as the preferred tourism destination
- Signing of a Memorandum of Understanding (MOU) with South African Tourism (SAT) and South African National Parks (SANParks) with focus on promoting of domestic tourism.
- Hosting of annual events in the province to attract both domestic and international tourists.
- The revision of the Free State Tourism Master Plan.
- Assistance to municipalities with the development of Municipal Tourism Plans.

Environmental factors

Problem Statement

Within the context of the FSGDS, specific areas will have to be managed carefully as the physical environment provides the platform for development. In this regard, the following needs to be prioritised:

- Less and better managed waste;
- Air quality in certain areas remains a concern;
- Improve the availability, quality and management of water;
- Mitigate the causes and effects of climate change.

Free State is committed to implement and monitor legislation and policies in the areas of Air Quality, Biodiversity, Climate Change, Compliance Monitoring, Environmental Impact, Protected Areas,

Key Departmental Response

Management of environmental and conservation factors is critical in developing and growing the provincial economy hence the following:

- The development and roll-out of the e-Permit system.
- To continue celebrating the Cleanest and Greenest Municipality Awards Competition.
- Cleaning of Free State Towns will continue to include all towns in the province.
- Continue to train waste pickers on issues relating to social enterprise development and recycling.
- The creation of positive awareness in good environmental management practices through the Eco-Schools Programme and Enviro-Quiz Competition.

Pollution Control, Protected Areas and Waste Management.

- The approval of Environmental Impact Assessments.
- Ensure legislative compliance and enforcement.
- Creating environmental awareness and building relevant capacity.

Other factors to be considered is to:

- Increase the participation of HDI's in the Biodiversity economy
- Enhance partnerships with private sector partners to increase the participation of SMMEs in Green economy.
- Upgrade investment and continued maintenance of Free State Resorts.
- Continued impetus on programmes of cleaning towns and waste management programmes in Municipalities to protect the environment for sustainable economic growth.
- Strengthening of environmental compliance and enforcement matters.
- Support to black game farmers, including industry transformation.

1.2 Performance Delivery Environment

1.3 Policy Environment

The mandate of the Department emanates from national and provincial policies as well as legislative frameworks, as described in our 2018 – 2020 Strategic Plan. In addition to the policies and legislation mention in the Strategic Plan of the Department, the Presidency has developed a National Development Plan (NDP) Vision 2030. This plan, which maps out the direction South Africa should take to achieve Vision 2030, has been considered when developing the 2019/20 Annual Performance Plan The main themes emphasised by the NDP includes:

- Economy and employment
- Economic infrastructure
- Transitioning to a low carbon economy
- Inclusive rural economy
- Positioning South Africa in the world
- Human settlement
- Promoting health and

Social protection

The Medium Term Strategic Framework (MTSF), the Nine Point Plan of Government, the Provincial Growth and Development Strategy, the 2019 Manifesto of the Ruling Party, and the Provincial Programme of Action has also been encapsulated in the content of this plan.

1.4. Demand for services

The demand for environmental services is largely driven by the legislative mandate of the department to protect and sustain the natural resources of the province. The services provided by the department in this regard therefore focusses in the main on the enforcement of environmental legislation, the management of bio-diversity and climate change, as well as environmental awareness and education.

The demand for economic related services is attributable to both push and pull factors. The macro-economic policies of government has resulted in the rendering of certain services in order to achieve the various policy objectives, such as tourism and industrial development. On the other hand, the current low GDP and GVA levels in the province, coupled with significantly high levels of unemployment has necessitated the delivery of certain services, such as SMME support, mining town support and township revitalization.

1.1. Organisational Environment

1.1.1. Programme structure

There are currently no changes in the programme structure of the Department.

The programme structure of the Department is illustrated by the table below:

Programme	Sub p	rogramme
1. Administration	1.1	Management Services
	1.2	Financial Management
	1.3	Corporate Services
2. Environmental Affairs	2.1	Environmental Policy, Planning and Coordination
	2.2	Compliance and Enforcement
	2.3	Environmental Quality Management
	2.4	Biodiversity Management
	2.5	Environmental Empowerment Services
3. Economic and Small Business Development	3.1	Integrated Economic Development Services
	3.2	Economic Planning
	3.3	Small Business Development
4. Tourism	4.1	Tourism Planning
	4.2	Tourism Growth and Development
	4.3	Tourism Sector Transformation

1.2.2 Personnel and Capacity to deliver services

The department is still substantially understaffed in certain critical areas, such as Economic Development and Environmental Affairs. This understaffing impacts negatively on the service delivery imperatives of the department. In an effort to mitigate this situation and improve service delivery, the department will give more attention to the following core areas for the 2019/20 financial year:

- Identify attrition posts during this financial year. This will contribute towards the reduction of the high vacancy rate and the employees who are overworked will be relieved of some additional responsibilities.
- Roll out training programmes in order to empower departmental employees.
- Provide a comprehensive employee health and wellness programme by offering treatment, care and support to the departmental employees and their families.
- Maintain a sound labour peace in order to create a conducive environment for efficient service delivery.
- Ensure that the organisational structure is aligned to the departmental mandates.

1.2.3 Budget

The Department is continuously challenged with inadequate compensation and operational budget allocations, effecting the efficiency of services provided by the organization. The budget estimates for the MTEF is discussed in Section 3, below. We will however continue to seek and employ innovative methods of securing funding for some of the planned outputs. These include collaborating with other government departments, state enterprises and the private sector in implementing some initiatives.

1.2.4 Challenges experienced

The department is faced with an array of challenges, amongst others the following:

- Personnel and critical skills deficits in crucial areas as explained above;
- · Fiscal deficits as explained above;
- · Synergy between the different spheres of government;
- · Local and global economic phenomena;
- Climate change.

1.2.5 Top ten risks

The main identified risks of the department are as follows:

- Communication program not aligned to departmental mandate and core business;
- Failure to utilise the allocated budget effectively (Over/ under spending);
- Loss of revenue;
- Injury on duty due to unhealthy working environment;

2019/20 Annual Performance Plan

- Unhealthy employees;
- Double dipping of SMME's supported/assisted by the department and data management;
- Outbreak of zoonotic diseases affecting game;
- Decline in Management Effective Tracking Tool (METT- SA) scores;

2. REVISION TO LEGISLATIVE AND OTHER MANDATES

The Department will continue to implement the Free State Growth and Development Strategy, MTSF and the National Development Plan, Vision 2030.

The department has not had any specific mandate changes.

3. OVERVIEW OF 2017 BUDGET AND MTEF ESTIMATES

Below is an overview of the departmental expenditure since 2015/16 financial year to 2018/19 and the estimated budget for 2019/20 to 2021/22. A trend analysis is also provided in section 3.2.

3.2. Relating expenditure trends to strategic outcome oriented goals

- The Department spent R463 076 in 2016/17 and R505 050 in 2017/18 respectively. This expenditure trend is in line with the departments' performance against its identified goals during the same periods.
- From the figures above it is clear that the budget allocation, especially the allocations to goods and services, infrastructure and machinery and equipment, will enable the department to achieve its targets as set out in this plan.
- that will allow the programme to achieve its objectives. The MTEF allocations are sufficient to allow the programme to achieve its The main cost drivers in Programme 1 are compensation of employees, centralized services (photocopy machine leases, IT support, etc.) and the main cost drivers are compensation of employees, travel and subsistence and provision for the filling of critical vacancies .
- The main cost drivers in Programme 2 are compensation of employees, the environmental programmes and environmental infrastructure projects. The overspending was mainly on compensation of employees. The MTEF allocations are sufficient to allow the programme to achieve its objectives.
- fund earmarked projects and to provide support Small Medium Enterprise's. The MTEF allocations are sufficient to allow the programme The main cost drivers in Programme 3 are compensation of employees, travel and subsistence costs. The increase in the allocation is to to achieve its objectives
- The main cost drivers in Programme 4 are compensation of employees, travel and subsistence costs. To promote and development of tourism in the Province. The MTEF allocations are sufficient to allow the programme to achieve its objectives.
- Irregular expenditure:

To address the ineffective SCM functions and the audit findings of non-compliance with Treasury regulations, a root -cause analysis had been conducted in 2018/19. The causes identified included a lack of effective policies, processes and procedures to deal with SCM, Irregular expenditure and broad based economic empowerment. In order to deal with the irregular expenditure, the investigation committee was appointed to investigate, oversee and recommend condonation where applicable.

PART B: Programmes and Sub-programme Plans

4. STRATEGIC OBJECTIVES AND TARGETS

This section will outline indicators and performance targets for each strategic objective identified in Part 2 of the revised 2018-20 Strategic

For each Programme the following are outlined:

- The aim of the programme;
- Cross Cutting strategic objective annual targets for 2019/20 to 2021/22; – ო ფ 4
 - Performance indicators and annual targets for 2019/20 to 2021/22;
 - Quarterly targets for 2019/20.

4.1. Programme 1: Administration

The aim of Programme 1 is to provide leadership and strategic management in accordance with Policy and Legislation and to provide appropriate support service to other program

4.1.1 SUB-PROGRAMME: MANAGEMENT SERVICES

Strategic goal: Provision of leadership for effective socio-economic development

4.1.1.1 Programme performance objectives, indicators and annual targets for 2019-22
